

DERMEDICS™ Purifying Enzymatic Exfoliator

Purifying Enzymatic Exfoliator is a soft, creamy peeling that gently eliminates the dead cells to reveal a younger and healthier looking skin. Unique scrub-free peeling with physiological pH provides deep purification without any downtime and requires no neutralization.

Probiotics* contained in the formulation strengthen the skin by creating a natural protective layer and thanks to that the skin recovers its natural balance of hydration and nourishment.

Overview

Exfoliation allows for deeper penetration of skin care products and meso serums = it is a great first step for all beauty therapies targeted on anti-aging, anti-acne and whitening effects.

- Unisex: for women and men
- Alternative exfoliant to AHA acids and standard microdermabrasion
- Suitable for skin of all ages and all types:
 - for normal to combination skin
 - for sensitive skin prone to irritations
 - for problematic skin prone to acne and to the formation of whiteheads and blackheads (comedo)
 - for skin with couperose and rosacea (adult acne)

Effects

- Deeply purifies and effectively softens the skin
- Removes dead, dry and dull cells from skin's surface
- Visibly refreshes appearance of the skin
- Minimises the appearance of skin pores and fine wrinkles
- Promotes anti-inflammation and anti-oxidant defence
- Improves skin hydration, nutrition and elasticity
- Leaves the skin's surface perfectly smoothed without irritations
- Stimulates cell renewal
- Restores skin's microflora balance

Probiotic properties support in reduction of bacteria that can cause skin diseases, inflammation and creation of whiteheads and blackheads (comedo), such as *Propionibacterium acnes* / P-acnes.

Active Ingredients

Exfoliating components: Bacillus Ferment (with probiotic properties).

Bacillus bacteria is a highly diverse group of microorganisms, known more than 100 years. There are strong scientific data substantiating the validity of the use of these bacteria as probiotics.

Soothing components: Lacticol and Xylitol to restore ecosystem balance. **Lipid components (emollients):** Isononyl Isononanoate [silky emollient used in products for infants and babies], Coconut Oil (Decyl Cocoate), Hydrolipidic Dermollient (Lauryl Olivat), Isohexadecane. **Calming components:** pure Dexpanthenol (D-panthenol 75%).

Anti-irritant agents: Licorice, Boswellia. **Protective anti-oxidants:** Green Tea, Vitamin E (Tocopherol). **Humectants (moisturising agents):** Allantoin.

Cleansing components: Sodium Lauroyl Sarcosinate.

Directions to use
