

# DERMEDICS™ Purifying Foaming Water

**Purifying Foaming Water** is a modern, gently cleanser in soft smoothing foam designed to assist in calming the discomfort associated with weak, itchy, highly irritated or reddened skin during facial cleansing procedures.

## Overview

A soft foam ideally cleanses all types of skin impurities. It is a great alternative to cleansing gel and soap, because it provides the same purifying efficacy with additional benefits, such as smoothing, moisturising and anti-oxidant defense.

Unique formula with physiological pH perfectly removes all types of impurities from the skin (hydrophobic and hydrophilic) to provide comfort of use and quick effects, such as:

- Cleansing and skin toning at once (using toner is not needed anymore)
- Deep cleansing that minimises the visibility of skin pores
- Visible smoothing that restores younger and healthier appearance of skin
- Extra anti-aging benefits (anti-inflammation and anti-oxidant defense)

## Directions for use

- Recommended for skin of all ages for normal to combination skin
- Unisex: for women and men
- Skin with discomfort associated with weak, itchy, highly irritated or reddened skin
- Effective but gentle facial cleansing product for sensitive skin
- Ideal for problematic skin with acne symptoms (to calm irritation)

## Active Ingredients

**Calming components:** pure Dexpanthenol (D-panthenol 75%). **Soothing components:** Scleroglucan, Polyglutamic Acid, Potassium Lactate. **Anti-irritant agents:** Licorice, Boswellia. **Protective anti-oxidants:** Green Tea. **Humectants (moisturising agents):** Urea. **Cleansing components:** Sodium Lauroyl Sarcosinate (one of the most gently surfactants).

They may have the same initials (SLS), but Sodium Lauroyl Sarcosinate and Sodium Lauryl Sulfate are NOT the same thing. Sodium Lauroyl Sarcosinate is only similar to Sodium Lauryl Sulfate in that they are both surfactants (and that is the only similarity).

**Sodium Lauroyl Sarcosinate provides very gentle and effective cleansing properties and that is why it is used in our Purifying Foaming Water.**
